

South Boise Child Care is an enduring icon for local residents in and around Boise. Over three generations of parents and children have passed through this child care center which succeeds using a simple formula: Provide a warm and loving environment, focus on individual needs, specialize in children from six weeks to five years, and hire personnel who truly care. The facility is renowned for quality care, low turnover among both children and staff, and consistent loving performance. Children are not "programmed" and pushed to achieve but rather mentored to grow and learn naturally. South Boise Child Care Center is a facility dedicated to individualistic care and providing a safe and nurturing environment.
